

Woodlands Green Burial Rates

Royal Oak Burial Park is located in a Coastal Douglas Fir ecosystem with the surrounding forest characterized by a mix of Douglas Fir, Grand Fir, Red Alder, Bigleaf Maple and Western Red Cedar. Arbutus and Garry Oak also grow where conditions permit. The Woodlands Green Burial at Royal Oak complements the park's existing forest ecosystem.

A woodlands full grave may be used for the interment of 1 or 2 caskets/shrouds (depending on the location chosen) and the cremated remains of 3 persons.

	Single Depth Phase I or Phase IV		Double Depth Upper and Lower Phase II	Double Depth Upper or Lower Phase II	Companion Fraction Cremation Only
